

Foreign Interference & Disinfo

Funded by
the European Union

Data collected in the course of the RADAR Public Debate 'Societal resilience in the disinformation age', co-organised between the Trans European Policy Studies Association and the Finnish Institute of International Affairs.

WHAT DO EUROPEANS MAKE OF THE USE OF DISINFORMATION BY MALICIOUS ACTORS?

88 % think malicious actors make use of targeted disinformation...

... but only 68% think it is possible to curb disinformation on foreign policy issues...

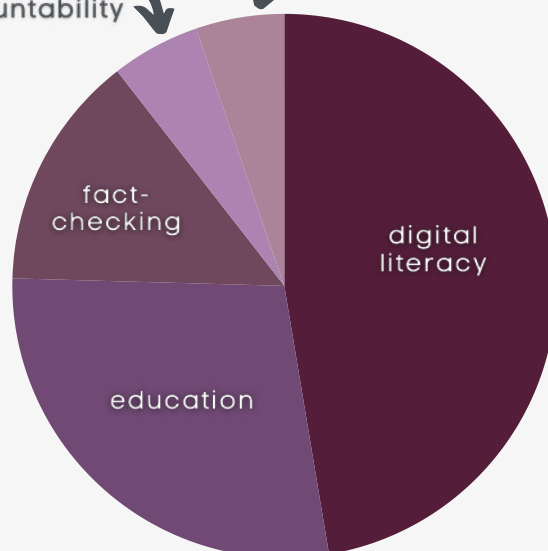

so how did the RADAR Public Debate work with participants to better understand the phenomenon?

better laws
judicial accountability

"how much did you learn about disinformation?"

almost everyone learned more about disinformation than they knew before

what would be the best ways to fight disinformation?
