Institut für Europäische Politik (IEP)

ABOUT

THE INVIGORATEU PROJECT

#InvigoratEU

InvigoratEU investigates how to reform the EU's enlargement strategy in a new geopolitical phase, how to respond to other actors' geopolitical ambitions in the Eastern Neighbourhood and Western Balkans, and how to rebuild the EU's foreign policy arsenal in view of a new era of military threats. It seeks to elaborate an evidence-based, forward looking vision for the EU's political agenda and institutional frameworks for co-designing a multidimensional toolbox, and has been presenting policy recommendations from day one. Learn more on the [project's website](#).

MORE ABOUT TEPSA

The Trans European Policy Studies Association (TEPSA) was established in 1974 as the first transnational research network in the field of EU affairs. Our network comprises 51 leading research institutes in 37 European countries, with an office in Brussels.

Our aim is to provide high-quality research on a number of European themes to stimulate discussion on policies and political options for Europe. This is achieved by the interaction between the European and national institutions as well as the academic and research community, and citizens.

TEPSA is active on a wide range of topics, focusing on differentiated integration, the EU's external relations, democratic participation and citizens' engagement.

More information on our activities can be found at www.tepsa.eu.
