US TO ABANDON
OUR COMFORTS**

FAKE NEWS

The EU is forcing people to eat synthetic meat and insects, give up their cars, and abandon traditional ways of living in the name of climate policies.

EU climate policies set emissions and efficiency targets to counter the

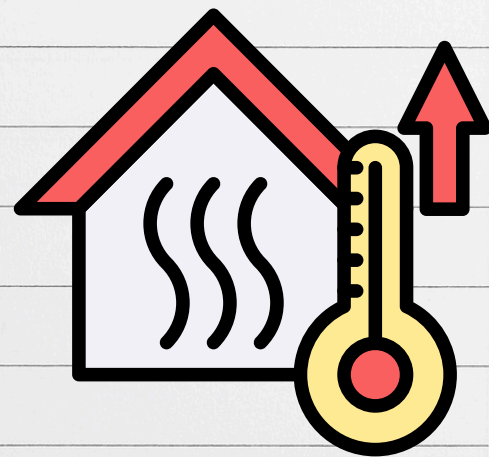

CLIMATE CRISIS

They do not ban private cars, meat, or existing petrol and diesel vehicles.

To ensure we can all live comfortably, the EU has set up instruments like the **Social Climate Fund** to help vulnerable households, micro-enterprises, and transport users **manage the costs** of the sustainable transition.
